## Directions:

1. Take a 4 ¼" x 11" piece of Not Quite Navy CS and fold it in half using your bone folder to create your card base.
2. Take a 4 ½" x 5 ⅜" piece of Kraft CS and emboss it using the Finial Press textured impressions folder and your Big Shot.
3. Center and stick the embossed Kraft CS piece onto the Not Quite Navy card front.
4. Take a 1 ½" x 3" piece of Not Quite Navy CS and scallop along one 3" edge with the scallop edge punch. Pierce a hole in the center of each scallop using a paper-piercing tool and foam mat.
5. Stick a 3" x 4" piece of Bella Bleu DP to the scalloped Not Quite Navy edge with Snail adhesive. Leave about a ¼" scalloped border.
6. Take a 4" piece of the Not Quite Navy ribbon from the Elementary Ribbon Originals collection and lay it about ⅛" away from the left edge of the DP. Bring the ends of the ribbon around to the back of the DP and stick them down using Snail adhesive.
7. Take a 6" piece of ribbon and tie it in a knot around the first piece of ribbon. If desired stick a button to the "knot" portion of the ribbon with a mini glue dot. As my button allowed me to actually thread the ribbon through the button, I did it as described in steps 8 and 9.
8. Take a 4" piece of linen thread, position it at the center of the ribbon and tie it in a knot around the ribbon. This will help gather the ribbon at that location.
9. Thread a 4" piece of ribbon through the button (up through one hole and then down through the other). Pull the ribbon taut and trim the ends of the ribbon on an angle. Stick the button with ribbon over the linen thread knot with a mini glue dot.
10. Place a rub-on greeting at the bottom right of the DP.
11. Stick two medium half back pearls, one above the other, in the top right corner of the DP.
12. Center and stick the decorated DP piece to the card front using 5 Stampin' Dimensionals. You're done!
