

# Bunny Punch Project

## **Supplies:**

***All Supplies are Stampin' Up! unless otherwise noted.***

- **Paper:** Whisper White CS, Bashful Blue CS, Glorious Green CS, Gable Green CS, Creamy Caramel CS
- **Accessories:** Snail adhesive, Stampin' Dimensionals, mini glue dots, Tombow Multi-purpose adhesive, 2-Way glue pen, Big Shot, Scallop Oval Frame die, paper snips, Stampin' Sponges, Ornament punch (retired), 1" Circle punch, ½" Circle punch, 5-Petal Flower punch, Dazzling Diamonds glitter, Sanding blocks
- **Inks:** Creamy Caramel, Tempting Turquoise, Chocolate Chip, Old Olive, Garden Green Classic ink

## **Directions:**

1. Take some Whisper White CS and your Scallop Oval Frame die and cut out an oval frame. Discard the center oval.
2. Take a piece of Bashful Blue CS large enough to accommodate the scallop oval frame with a border. Sponge the edges and into the center area with some Tempting Turquoise Classic ink.
3. Glue your oval frame on to some Bashful Blue CS making sure that there is enough border all around for cutting.
4. Take your Paper Snips and cut around the scallops leaving approximately 1/8" border.
5. Take some scraps of Glorious Green and Gable Green and place them over the center oval section of your Scallop Oval Frame die. Run it through your Big Shot so that you have two partial pieces of the base of the inner oval, one of each green. Cut the tops of the green oval bases in a wavy hill fashion. Sponge the Gable Green hill with Old Olive Classic ink, and the Glorious Green hill with the Garden Green Classic ink.
6. Stick your hills on to the inner section of your Scallop Oval Frame. The lighter color should be at the front, and the darker color should be to the back.
7. Stick your rabbit to the hills using Stampin' Dimensionals.
8. From some scraps of whisper White CS, free hand cut some clouds. Sponge them lightly with a touch of Tempting Turquoise ink. Stick them to the sky using Stampin' Dimensionals. Take your 2-Way glue pen and add glue to each cloud. Sprinkle with Dazzling Diamonds glitter. You are done!
